

## ERASMUS + MULTIPLIER EVENT – PRESENTATION OF THE PROJECT RESULTS FOR KA229 and KA102

Vocational School of Economics and Commerce in Vranje was the host of the ERASMUS + Multiplier Event on October 27, 2023. It was a presentation of the project activities and results of two ERASMUS + projects that had been implemented previously.

The attendees were introduced to the activities of the students who participated in the mobilities, and at the end, the long-awaited certificates and project brochures were distributed to everyone.

The students from 4/2 and 4/5 presented the project **One Language One Person (KA229)**, and then the students from 3/6 joined them in presenting the project activities and results of the **KA102 project "My future in my hands - training for excellence"**.

The students were very professional and engaging presenters and the audience responded with cheering and loud applause at some parts of the stories. It is safe to assume the evening was quite successful!

ERASMUS + Project Coordinator:
